

SEALCOAT APPLICATOR

DPS550T

Available sizes: 550 gal

Marathon's sealcoating unit is a professional grade sealcoat applicator built with superior construction and designed to last! This low profile unit comes complete, ready to add sealer and go to work!

FEATURES

- 550 gallon material capacity is a perfect capacity designed for any job.
- Hydraulically controlled, with a full sweep agitation and paddle arms that rub sidewalls for superior cleanout.
- Material tanks are all manufactured with heavy duty 10 GA steel for a long service life.
- Extended trailer storage area gives lots of storage space for tools, sandbags, buckets and more.
- Comes with a two stage, tank mounted 13hp air compressor with electric start.
- Electric brakes and breakaway kit equipped on industrial grade slipper spring axles.
- Stainless steel basket strainer removes solids that may clog spray tips.
- 100ft sealer hose with application wand and a hose reel designed for rugged, heavy duty applications.
