

PROPANE FIRED MASTIC MIXER

Marathon

MM100PT

Available Size: 100 gal

Marathon is the leading manufacturer in the industry for engineering the best Mastic Mixers! Our entry level 100 gallon unit is perfect for smaller contractors with small to medium repairs. Larger capacity units available in 250 gal & 350 gal for medium to large jobs.

FEATURES

- Manufactured with minimum 10 GA steel, fully welded and constructed of heavy duty 5" channel and gusseted in locations for safety and strength.
- Agitator has forward and rear drawing ability which blends the mastic materials better due to the ability to move mastic, not just lifting it from the bottom of the material vat, as competitive units do.
- Easy access to burner, engine, fuel and hydraulic reservoirs for maintenance purposes.
- Lower loading height of materials decreases operator fatigue and makes it safe and easy for operators to load material into the tank, without having to step up on trailer.
- Low center of gravity for superior rear visibility when towing.
- The heated delivery chute pivots farther from side to side (greater pouring radius) and chute keeps materials hot while flowing out of the unit for easy mastic applications.
- Controls are fully digital, accuracy to within 5°.
- Tool heater is generous enough to get larger application tools in and out of.

SPECS

Models	MM100PT
Shipping Weight	3,469lbs (1,573kg)
Dimensions	
Overall Length	149"
Overall Width	68"
Overall Height	77"
Loading Height	60"
Delivery Chute Height	30"
Capacity	
Material Vat	100 gal (378 L)
Heat Transfer Oil	22 gal (83 L)
Hydraulic Oil Tank	13 gal (50L)
Engine	9.5 hp Kohler Propane
Burner	(1) 300,000 BTU Propane burner
Suspension	
Axle(s)	Single
Capacity	7,000lb (3,175kg)
Tires -size	(2) 235/85/R16

***Specifications subject to change without notice.**

OPTIONS

- Heated square shoveling platform
- Hydraulic surge brakes
- Green strobe burner indicator light
- 2-5/16" ball hitch
- Spare tire and rim mounted
- Amber strobe light
- Flashing arrowstick with LED arrow ends
- Various size application smoothers, scrapers and squeegees

*** 12 gal mastic applicator (MD12)**

BEFORE

AFTER

Gap-Mastic™ is a hot-applied polymer modified asphalt mixed with engineered aggregates and modifiers designed to fill wide cracks and defects to prevent water infiltration and restore ride quality. It is designed as a permanent repair solution for wide thermal cracks, fatigue cracking, rutting and depressed broken-up areas. It is also recommended for use around solid structures in flexible pavements like manholes, gutters, and drains.
